

Entering Limited-Draw or Lottery Hunts

Lotteries through iSportsman are conducted to provide opportunities for hunters and anglers to enter for the chance to participate in activities where there is a limited number of slots for participants or to allow fair access to select preferred locations. To enter into a lottery at an outdoor recreational location (military base, wildlife refuge, public hunting area, etc.) managed using the iSportsman service, please refer to the specific facility or location's website to verify when the lottery will be available for entry and then drawn. You must have all required validations in order to see and enter the lottery. Check with the facility or location's iSportsman website for information on how to obtain validations or contact the agency managing the hunt directly.

Once you have created an iSportsman user account and the proper validations are obtained (if required), follow the below steps to enter the lottery in which you are interested in participating.

- To enter a lottery, you must acquire a Lottery Entry Permit.
- Log into your portal.
